

Hey! My name is **Amy Suttle** and I have been looking forward to being a camp counsellor at HBRA for months!

Here's a few things about me...

I am 21 years old and I absolutely love the sea! This is probably because I was brought up in a tiny seaside town called Swanage.

My favourite hobby is scuba diving. It's absolutely amazing to be able to get so close to underwater creatures. If I had it my way, I would spend the majority of my time under water.

I also love to travel. These photos are all from different places, such as Kenya, Thailand and Australia.

I think my smile says it all here. This was taken in Thailand where I was lucky enough to wash the elephants! (Probably didn't get them too clean in this water though)

Here I am in Kenya, where I volunteered for four weeks in a school for street boys.

I have just finished studying Primary Education at Plymouth University, which was an amazing experience. I could definitely do it all over again.

This was in Australia where a turtle decided to photobomb me.

SO, that was just a few things about me. I am so excited to meet everyone at HBRA and have THE BEST SUMMER EVER!!
